PROTECTIVE APPAREL

WHY WORKING WITH ASBESTOS, LEAD AND MOLD DOESN'T HAVE TO MAKE YOU UNCOMFORTABLE

TYVEK® is a unique, non-woven material comprised of heat- and pressure-bonded polyethylene filaments designed to repel airborne particulates like lead dust, mold, asbestos and many other dry particle and aerosol hazards.

TYVEK® is a proprietary technology only available from DuPont®. All garments are anti-static treated and are recommended to be sterilized by gamma sterilization.

Garments have a shelf life of at least 5 years based on hyperbaric oxidative degradation studies.

- Proprietary fabric technology only available from DuPont™
- Sort, lightweight and breathable
- Anti-static, non-linting and durable
- Protection against a variety of liquid and solid chemicals, particles and hazardous fibres such as asbestos and fibreglass, lead, paint and aerosols

Certified Protection
